## May is Building Safety Month

### Building Codes: Driving Growth Through Innovation, Resilience & Safety

The Building Safety Month campaign helps to improve public safety by increasing awareness about how building codes and code officials improve and protect the places where we live, learn, work, worship and play. The campaign reinforces the need for adoption of modern, model building codes, a strong and efficient system of code enforcement and a well-trained, professional workforce to maintain the system. All communities

need building codes to protect their citizens from disasters like fires, weather-related events and structural collapse. Model building codes are society's best way of protecting homes, offices, schools, manufacturing facilities, stores and entertainment venues. Code officials work day in and day out to keep the public safe. Next month, [cityofdacono.com](http://cityofdacono.com) will feature weekly updates to inform residents about building safety in our community.

## Almost Free Building Permit Month Begins in June!

It's time to head to the home improvement store and kick-off that summer project. Don't forget that during the month of June, the City of Dacono is offering "Almost Free Building Permits." In an effort to encourage residents of Dacono to upgrade and improve their residential properties, the City Council will temporarily reduce the amount of certain fees associated with issuing residential building permits during the entire month of June. This includes application fees, plan review, and inspection fees. The fee reduction applies towards the alteration, repair, or improvement of existing residential structures and the erection, alteration, repair or improvement of structures associated with existing homes, such as garages, additions, carports, sheds and fences. Payment of use tax still applies. All necessary permits must be obtained prior to beginning your project. As always, any work completed without a building permit is subject to double permit fees. Work authorized under the permit must be completed by no later than September 30, 2016, otherwise all applicable fees, including the full building permit fee and plan review fees and inspection fees, shall be paid. Contact Donna Case at (303) 833-2317 ext.128 or go to [www.cityofdacono.com](http://www.cityofdacono.com) for more information.
